

Class option #1

# Designer for a Day

By blue meadow designs

We pride ourselves on our versatility in quilt design. When we design a quilt, we always have more than one version. We love to educate quilters on how to customize the design and make it their own using different layout and color options.

Our class begins with what inspires us, the little pieces of inspirations and the places we find them. Then we show how to transform that inspiration into a sketch, a drawing then a computer image. Then we show the students how to change the original design and color schemes using our favorite quilt designing program, EQ6.

We want to give the "everyday" quilter the power to design quilts that are uniquely theirs!

This class will educate the customer about designs and fabrics. By educating customers the quilt shop will have increased fabric sales.

1 Day class 6 hrs

Number of students: 12-15 students

Level of difficulty: Experienced quilter

The students will come away from this class with a pattern as well as their fabric selections to start their new pattern at home.
